

# Ida Public Schools Superintendent Community Brief

Where Learning Strikes

Dear Ida Public Schools Community!

At the beginning of the year, I asked you to add levity to your days. With so many challenges coming at us, we needed to take time to laugh and enjoy one another. Laughter being the great stress reducer. This year, I observed laughter, great times together and our normal activities restored that were met with increased appreciation.

We are a great and strong community that rallies. Thank you for allowing me to be a part.

I am going to paraphrase some of the thoughts I shared with the Class of 2022 at commencement.

Think back on your life. Who is the person that most inspired you? What words would you use to describe them? Take time to really think about this. Commit those words to memory.

You can be that positive, that inspiring. There is a good chance you already are. Put those words on your bathroom mirror, in your wallet. Guard them from your fears and nurture them each day. Remind yourself of them when another means you harm. Use those words to inspire you in the workplace, in college and most importantly in your relationships.

A song to consider adding to your playlist come from the musical artists Sidewalk Prophets, “The Words I Would Say”.

Part of the stanza goes like this:

You’re gonna do great things  
I already know  
God’s got his hand on you so  
don’t live life in fear  
forgive and forget  
but don’t forget why you are here

Again, congratulations and thank you for sharing the last three years with me.

God bless,

Mrs. Kreps AKA Sandy

“Discover what you were wired to do and do it in kind service to others! To me, this is the definition of greatness.”  
~ Sandy Kreps

## SPOTLIGHT ON AGRISCIENCE

Hello!

I'm beyond excited to have the opportunity to be the instructor for the Agri-science program starting this upcoming school year. Agriculture education encompasses a wide variety of topics related to agriculture, food, and natural resources. Students engage with the curriculum through hands-on learning experiences that prepare them to be successful in life. This is an exciting program to be building and I look forward to all the opportunities that this will bring to our students. If you have any questions or interest in the new program, please don't hesitate to reach out to me. I look forward to interacting and including the community, students and staff through this new journey and I can't wait to see what we are able to accomplish!

Best,  
Caitlin Luck
