Where Learning Strikes

FROM THE SUPERINTENDENT

Dear Bluestreak Families:

Welcome back to the start of another exciting school year! As the new academic year begins, I am delighted to extend my warmest hellos to all members of our school community. I hope this letter finds you in good health and high spirits, ready for the journey of learning and growth that awaits us.

The past year has undoubtedly presented us with a lot to celebrate.

- The creation of two Career Technical Education (CTE) tracks - Agriscience and Welding
- New greenhouse for the Agriscience program
- Expanded afterschool and summer school programs
- Additional elective offerings in the high school
- Increased ELA instruction in the middle school
- High level professional development to elementary teachers that empower language skills, reading, and spelling

As we return to our beloved school campus, it fills me with immense joy to see the halls bustling with eager students, the classrooms alive with the exchange of ideas, and the fields resonating with the spirit of teamwork. We are committed to fostering a safe, and nurturing environment, ensuring every student can achieve their full potential.

We are continually working to enhance the educational experience for our students. We have invested in new learning resources, expanded

our curriculum, and bolstered our professional development programs for our educators. Together with our dedicated teachers and staff, we strive to provide a well-rounded education that empowers students to excel academically.

This year, we will continue emphasizing the importance of empathy, kindness, and respect in our school community.

Parents and guardians, your partnership is crucial to the success of our students. We encourage open communication between home and school, ensuring that we work hand in hand to support your child's growth and development.

Community members, your support is vital in creating a thriving educational system. We value your involvement through volunteering,

mentorship, or supporting school events. Together, we can foster a strong sense of community that enriches the lives of our students and enhances the overall educational experience.

In closing, I express my deep gratitude for serving as your superintendent. I look forward to a year filled with learning, laughter, and memorable moments. Let us embark on this journey together, united by the shared goal of empowering our students to become confident, compassionate, and capable global citizens.

If you have any questions or concerns throughout the year, please do not

hesitate to contact your child's teacher, school administration, or our district office. Your feedback is valuable, and we are here to support you in every way possible.

I wish you all a fantastic and successful academic year!

David Eack

School begins for students on **Tuesday, September 5th, 2023**. The Ida Public Schools Board of Education, faculty, and staff would like to welcome everyone back, as we begin another exciting year.

Safety City

Ida Pubic Schools had the pleasure of offering its summer "Safety City" program to incoming Pre-K and Kindergarten students. The program ran from June 19th through June 30th, with 23 children coming together for two hours each weekday to learn the importance of making good choices and staying safe in many areas of life.

Week One

- Learn about bike and playground safety, which prepared them to ride bikes around Ida's Safety City and be safe on the playground equipment with their new friends.
- Austin Otto displayed his tractor and explained how to stay safe if ever around one. Each child had the opportunity to sit in the tractor's driver's seat.
- Our participants also got to see a fire truck up close. Ida Firefighter Ron Eby stressed the importance of having a home escape plan in case of a fire and allowed every child to sit in the fire truck. It ended with a great display of how far the truck can spray water, and the kids loved it!
- Other topics were how to call 911 and the exploration and the purpose of an ambulance.
- Bus safety was also discussed to prepare the future Bluestreaks for the Fall and to prepare them for their first field trip to the Dundee Community Pool.
- Week one ended with a bus ride to the pool, where participants used their water safety rules and had a blast!

Week Two

- The hygienists from "Smiles on Wheels" shared how to have good dental care.
- Louie the Lightning Bug from DTE stopped by to explain how important it is to stay away from downed power lines and how to stay safe around outlets and electricity.
- Eddie Eagle flew in to remind the children never to touch a gun. Officer Hooper taught them to "Stop, Don't Touch, Leave the Room and Tell an Adult!"
- Animal Control visited to remind the children what to do around unfamiliar animals.
- Train and railroad safety were discussed.
- Officers from the Sheriff's department came to explain how important and helpful the police can be when someone is in need, and the children were reminded about how and when to call 911. They brought their trained canines to show their skills in helping the police help others.

The program ended with each participant being honored at the "Safety City Graduation" with a certificate of completion and a delicious breakfast picnic enjoyed by all!

The program's teacher and administrator was Mrs. Julie Stein, and her assistant was Mrs. Amy Angerer. The Ida High School student helpers were Katelyn Bydlowski, Caitlin Chambers, Jayda Stone, and Ava Vandervlucht.

Special thanks go out to all participating presenters for their time, enthusiasm, and generosity of donations that made this program so valuable for our incoming Bluestreaks!

Celebrating the Success of Summer School: A Journey of Growth and Learning

Creating Change, One Summer at a Time

As the warm rays of summer begin to wane and the back-to-school season approaches, we take a moment to reflect on the success of our Summer School program. We are thrilled to share with you the journey of growth and learning that unfolded over the past few months. We want to take a moment to celebrate the achievements, dedication, and hard work of our students, teachers, and all those who contributed to making this year's Summer School a success.

Our Summer School has always been about providing a nurturing environment that fosters explorations and promotes the joy of learning. We believe education is not confined to textbooks and traditional classrooms; it thrives when students can explore their interests and passions in a supportive setting. This year, we partnered with Family Shelter Services of Monroe County to bring learning alive. We focused on offering academic courses and activities that encouraged individuals to create, explore, and play, encouraging students to expand their horizons and discover their true potential. Over the six weeks, students created terrariums, built birdhouses, slipped and slid through paint, and created shirts and stepping stones; students giggled, played, and discovered.

Summer School is only possible with our dedicated team of educators who played a pivotal role in the planning and implementation of programming. They brought enthusiasm, expertise, and creativity to the classroom, making learning an engaging and interactive experience for every student. It was inspiring to see our educators' genuine passion for shaping young minds and instilling a love for learning.

At the core of our Summer School's success was the spirit of collaboration. We saw students of different ages and backgrounds come together, forming bonds of friendship and connection that will last a lifetime. Group projects, team-building exercises, and interactive workshops allowed our students to develop vital skills like communication and teamwork, preparing them to thrive academically and in their future endeavors.

While our Summer School was undoubtedly successful, we faced a few challenges along the way. From the air quality concerns to occasional logistical hiccups, we navigated through it all with resilience and determination. These obstacles served as valuable life lessons for our students, teaching them the importance of adaptability and perseverance in facing challenges.

As the summer sets and we prepare for the upcoming school year, we know that our Summer School's impact will linger in our student's hearts and minds. The knowledge gained, the friendships formed, and the memories created will continue to shape their future journeys.

We are already looking forward to next year's Summer School, where we aim to build upon this year's success and create an even more enriching experience for our youth.

Once again, we extend our heartfelt gratitude to everyone who contributed to the success of our Summer School. Together, we are sowing the seeds of knowledge and nurturing the potential of young minds, ensuring a brighter and more promising future for our beloved Bluestreak community.

A special thanks to:

Mrs. Ash, Curriculum Director

Mrs. Becker, Summer School Administrator

A very special thank you to our teachers:

Mrs. Funchion, Mrs. Stein, Ms. Hamm, Mr. Drabczyk, Miss Becker

A heartfelt thank you to our paraprofessionals:

Ms. Angerer, Ms. Flemming, Ms. Gillean, Ms. Hanson, Ms. Johnston, Ms. Schooner, Ms. Swartz

Thank you to the PTA for the love, support, and full bellies.

This program would not have been possible without you!

A Summer of Adventure

We are excited to share the success of our summer field trips! Our community came together over the past few months to embark on unforgettable journeys, fostering learning, connection, and joy. We cannot thank everyone enough for their enthusiastic participation and support, making these trips an immense triumph. To our parents, thank you for sharing your students with us; it was a summer for the books.

The summer field trips were planned to provide an enriching and diverse experience for all age groups. There was something for everyone, whether little or big, adventurous or curious. From exploring the wonders of science to splashing in a wave pool, these excursions left lasting impressions on both hearts and minds.

One of the most rewarding aspects of these trips was witnessing the sense of unity and connection among our students. The summer field trips acted as a platform to strengthen our bonds and reaffirm the values that make our community truly special. None of this would have

been possible without the hard work and dedication of our teachers, administration, and friends at Family Shelter Services. Their tireless efforts behind the scenes ensured everything ran smoothly and seamlessly, allowing all participants to focus on soaking up every moment of these memorable experiences and, in some instances, the sun.

We eagerly look forward to the coming seasons. Our commitment to providing enriching experiences for our community remains steadfast. We will continue to explore new ideas and destinations, striving to make each summer better than the last.

We extend our heartfelt "thank you" to everyone who contributed to our summer field trips. Your unwavering support and enthusiasm have made this journey genuinely extraordinary. Together, we have proven the power of community and the magic of exploration.

Until next summer, let us hold on to the memories we've created and carry the spirit of adventure in our hearts.

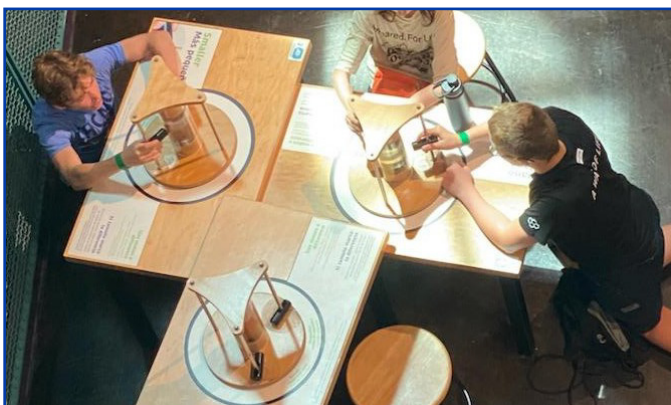

◀ **CONNECT FOUR!** Ida Middle School students play a competitive game of Connect Four while making CONNECTIONS with Elementary Students at the Michigan Science Center.

▲ **LEVEL UP!** A friendly competition ensues between friends visiting the Level Up space at the Science Center in Detroit.

▶ **CHALLENGE ACCEPTED!** Middle school students take their gaming skills from the screen to real-life challenges.

▶ **GOING UP!** Elementary students take in their surroundings while riding an all-glass elevator.

Coming Soon to Ida Public Schools

Paid for by the PTA

Thanks to the success of our annual Read-a-Thon, enough funds were raised to purchase the pictured playground equipment. Students were allowed to vote on which color combination they liked best; the picture shows the winning combination. The installation is scheduled to begin the week of August 14th with the hope that it will be complete for the new school year. Please be cautious during installation when enjoying the rest of the elementary playground equipment, but also revel in anticipation of the new addition! In addition to the funds raised, the success of the Read-a-Thon shows in our students' enthusiasm to read at school and for pleasure. Please encourage reading year-round; this will lead to a much smoother educational experience and enjoyment outside school.

Novel Ideas Happen at Ida Elementary School

Our brand-new Book Vending Machine is a genuine "anticipatory set." Teachers often use anticipatory sets in education to ignite interest in a topic strategically; can you guess what the topic is? Yes, READING! Students will be given a token by their teacher to select a book from the vending machine. Renae Jones presented this concept at a PTA meeting two

years ago. The concept became a reality through much research and collaboration with our amazing PTA. Books are provided as a result of our ever successful book fairs. Please note how your contributions to your child's learning experience come back to them in various exciting ways! This is a before picture, a little sad without the books.

We are **HIRING!**

Bus Drivers: Full time or substitutes

- * no CDL necessary to apply - we pay to train!
- * CDL reimbursement
- * Paid holidays and sick time
- * apply on-line or complete a paper copy

Summer Projects

Ida's Greenhouse

We are thrilled to announce a groundbreaking initiative in our agriculture education program! This school year marks a significant milestone as we proudly introduce the first-ever greenhouse for our district. With this greenhouse, we aim to take our students' learning experience to new heights. This facility will provide a controlled environment that allows our students to explore hands-on, practical knowledge of modern farming techniques, sustainable practices, and advanced agricultural technologies. The greenhouse will serve as a living laboratory, offering experimentation, research, and collaboration opportunities among our aspiring farmers. Students will gain valuable insights into crop cultivation, pest management, irrigation methods, and more. As we embrace sustainability

and environmental stewardship, this greenhouse will testify to our commitment to a greener future. We extend our heartfelt gratitude to all those who supported this project, including our dedicated staff, community partners, and generous donors. Your contributions have made this dream a reality, and we are excited to witness its positive impact on our students and the wider community. Together, we are nurturing the next generation of environmentally conscious agricultural leaders, and with the support of this greenhouse, we are confident that our students will flourish. Thank you for participating in this incredible journey toward a greener and more sustainable future. Look for a plant sale in the Spring!

Middle School Bathroom

As part of our continuous efforts to improve the learning environment and create a positive experience for our students, we are thrilled to announce some exciting updates coming your way!

We have listened attentively to the valuable feedback from students, staff, and parents regarding the state of our bathrooms. We understand that well-maintained facilities are crucial in promoting comfort, hygiene, and overall well-being within the school community.

With that in mind we are excited to inform you that we are initiating a comprehensive bathroom renovation project! This endeavor aims to revamp and modernize the existing 5/6 bathroom, ensuring they become more functional, aesthetically pleasing, and in syn with the school's overall atmosphere.

Thank you for your continued support, feedback, and partnership in shaping the future of our school!

Food Service

Welcome to the 2023-2024 school year! Wonderful news for you: **Governor signed Historic Education Budget Providing Free School Meals etc thru June 30, 2024! Every student is eligible for one free breakfast and one free lunch. Anything beyond that will need to be paid for.**

Breakfast will be served in each building

- Students will go directly to their building cafeteria to eat.

Lunch

- Ala Carte will be available, as usual in the Middle and High school during lunch times.
- If your child packs his/her lunch, milk will be offered for .50.

If a doctor has determined that your child has a disability, and the disability would prevent the participant from eating the regular school meals, we will make reasonable substitutions to the meals for students who are considered to have a disability

or medical need that restricts their diet. **This is done on a case-by-case basis.** A doctor's statement, including prescribed diet and/or substitution, must be submitted to the food service department of the school. The Dietary/Allergy form may be obtained by the school website, school offices or the Food service dept.

We will provide building lunch menus as usual. These can be found on the school website under the specified building. Elementary breakfast menu will also be provided. There is a Nationwide food chain supply issue. There may be menu changes that are out of our control, due to product shortages. Please be patient as we will do our best to provide the best for our students... which is a yummy and healthy meal.

We look forward to a great school year here at Ida Public Schools

If you have any questions please call Pam Oberski, Food Service Director 734-269-9003 ext.3510 or email Pam at oberski@idaschools.org.

Don't Scrap the App!

We still need your household to fill out and sign the Free and Reduced-Price Meal Application that will be arriving in the school packets. This information is critical in determining the amount of money that our school receives from a variety of State and Federal supplemental programs like Title I A, At-risk (31a), Title II A, E-Rate, etc.

These supplemental programs have the potential to offer supports and services for our students including, but not limited to:

- Instructional supports (staff, supplies & materials, etc.)
- Non-instructional services (counseling, social work, health services, etc.)
- Professional Learning for staff
- Parent and Community engagement supplies and activities
- Technology
- **Numerous fee waivers for high school students (Please see your counselor for more information)**

We are asking that you please complete and submit it as soon as possible to ensure that additional funding for our school is available to meet the needs of our students. All information on the application submitted is confidential. Without your assistance in completing and returning the application, our school cannot maximize the use of available State and Federal funds.

NOTE: Ida Public Schools will be moving the meals payment software from MySchoolBucks to Infinite Campus Additional information will be posted on the website.

Parent/Community to District Communication

In order to minimize confusion or inaccurate information, it is important to speak directly to the persons involved, especially if you have received your information second hand, as many questions or concerns can be quickly addressed. If after the initial contact you are not satisfied with the information or results of the action taken, please contact the next person in the communication process below.

- 1st - Teacher
- 2nd - Principal
- 3rd - Appropriate Central Office Administrator
- 4th - Superintendent
- 5th - Board of Education

Athletics/Extracurricular Activities

- 1st - Coach
- 2nd - Athletic Director
- 3rd - HS or MS Principal
- 4th - Superintendent
- 5th - Board of Education

In general, academic or behavioral problems or concerns should go follow the order on the right. For example, if your question or concern is with a teacher, you would go to the teacher first. If you are not satisfied with the information or results of the action taken, you would then go to the principal, and so on. At times, an appointment is necessary to provide our full attention to the matter.

AG day at the Elementary

Alyssa Otto ~
You are the best!
Our elementary
students learn
because of
your hard work!
Agricultural
Science teacher
Caitlin Luck, IHS
Senior Alyssa
Otto, and
several others,

including Deputy Hooper, were an imperative part of this successful learning experience. Having a well-rounded education includes a variety of learning experiences. Ag Day is an excellent culminating experience for students in the spring who have applied themselves all school year. This is true in ways that students engage in the community as well. From Ida Elementary School to our strong community, thank you for the various ways you support extending learning outside the classroom.

America's Farmers Grow Communities Grant

Thank you to **Alan Matthes** for selecting Ida High School FFA to receive a \$5,000 grant from the Bayer Fund to be used for Ida's FFA chapter.

What is the America's Farmers Grow Grant? From food banks to fire stations, these grants fund rural communities with grants that make a positive impact on rural nonprofits. Each year eligible farmers enroll for a chance to help a rural nonprofit organization with an America's Farmers Grow Communities donation, sponsored by Bayer Fund. Since 2010, the Bayer Fund has awarded more than \$35 million to thousands of organizations. More information about grants can be found at americasfarmers.com

Drive Carefully ... Fuller loves you

We are delighted to introduce you to "A Fuller Experience," a brand-new driver's education program catering to the needs of our local community. We understand the importance of safe and responsible driving, so we are excited to offer this comprehensive program to help young drivers embark on their journey behind the wheel.

We are proud to inform you that this initiative is the vision of one of our own, Mr. Chuck Fuller. Recognizing the growing need for quality driver's education in our area, Mr. Fuller embarked on a mission to establish a program that not only imparts the necessary skills but also fosters a sense of responsibility and confidence in our aspiring drivers.

"A Fuller Experience" provides a safe and supportive learning environment allowing students to grasp the essential

knowledge and hands-on training required to become responsible and skilled drivers. The curriculum is designed to cover all aspects of driving, from the rules of the road and defensive driving techniques to vehicle maintenance and the importance of being conscious of other road users.

"A Fuller Experience" is now open! To secure a spot for your child or to learn more about our program, please call us at 734.756.4408 or email us at fulleradvantagede@gmail.com

Take advantage of this fantastic opportunity for your child to receive a top-notch driver's education within our community.

Thank you for being so supportive, and we look forward to welcoming your family to our school. Drive Carefully. Fuller loves you.

Upcoming November election: On the ballot for Ida

We will have a proposal on the ballot at the November 7, 2023 election.

Since our last few attempts have failed to pass a bond to make upgrades and additions to building infrastructure that included safety and curriculum upgrades we have researched other options in an effort to propose a tax levy on this November's ballot. As many are aware the boilers are at the end of their life. It is not if they will fail but when. The district is unable to fully fund the project and this is why we have opted the Sinking Fund option. This will not only allow the upgrades to our district heating and cooling but complete some additional needed projects. All we ask you, as a voter, to do is to become informed before you vote. Thank you!

The language that will be on the ballot:

Millage Proposal

Building and Site Sinking Fund Tax Levy

Shall the limitation on the total amount of taxes which may be levied against all property in Ida Public Schools, County of Monroe, State of Michigan, be increased by and the board of education be authorized to levy not to exceed 2.6500 mills (\$2.6500 on each \$1,000 of taxable valuation) for a period of eight (8) years, 2023 to 2030, inclusive, to create a sinking fund for the purpose of construction or repair of school buildings and the improvement and development of sites and for any other purpose which may be authorized by law? It is estimated that the revenue the school district will collect if the millage is approved and levied in the 2023 calendar year shall be approximately \$1,053,292; revenues from this millage will be disbursed to Ida Public Schools.

You ask, "What is a Sinking Fund?"

A sinking fund is a cash-based savings account, so it does not accrue interest like debt would. By setting aside money in the sinking fund regularly, the Ida community can avoid sudden financial burdens or the need to take out large, interest-bearing loans when these significant projects or expenses arise. These funds are used to finance critical, planned expenses that support daily operations such as building repairs, renovations, or purchasing new equipment.

You ask, "Why a sinking Fund?"

- Improve Schools and community
- Transparency and Accountability
- Leverage Available Federal Funding

You ask, "What are the tentative projects?"

High Priority Improvements

- Replace Failing HVAC Equipment
- Add A/C in the HS/MS
- Build a new road to the Elementary
- Implement Safety upgrades
- Weatherize and repair exterior of buildings

Our building's HVAC equipment is beyond its life expectancy and could fail anytime, forcing emergency school closings and costly repairs. In response to these concerns, this summer, we began the initial drilling of a well to investigate the efficiency of geothermal. Geothermal HVAC systems pump water through underground loops that either cool or heat the circulating water that will be used to control the climate of the buildings efficiently. This process eliminates boilers, univents, domestic hot water heaters, and all respective piping. This lower maintenance solution is also eligible for a 40% credit and will provide high and middle-school air conditioning.
